

REMARKS

By this Preliminary Amendment, a cross-reference to related applications and an Abstract are being added to the specification, and the claims are being amended to conform with U.S. practice. More specifically, multiple dependencies are being avoided, reference numbers are being deleted from the claims, "wherein" is being substituted for the European introductory phrase "characterized in that" and the claims otherwise modified to ensure clear antecedent basis. The addition of "new matter" has been scrupulously avoided. The substance of the claims remains the same. Claims 1-14 remain in this case.

Favorable consideration of this application, as amended, is respectfully requested.

Respectfully submitted,

Jeff Rothenberg, Reg. No. 26,429
